

General Guidelines for Skill Test

Test Platform: VLearn during ZOOM Live session

About Skill Test

As part of our commitment to ensuring that our learners acquire and demonstrate mastery of the essential skills in their chosen programs, we are conducting one skill test in the program. Here's what you need to know:

1. Three Skill Tests per Program:

- Every program includes three carefully designed skill tests, scheduled at key points during the course. The test is strategically placed to assess your progress and understanding of the core competencies essential to your field of study.

2. Skill-Focused Assessment:

- Skill test is tailored to evaluate the critical skills specific to your program. Whether it's technical expertise, analytical ability, or practical application, the tests are designed to measure your proficiency in the areas that matter most for your professional development.

3. Passing Criteria:

- To successfully pass the skill test, a minimum score of 60% is required. This passing percentage ensures that you have achieved a solid understanding of the material, allowing you to confidently move forward in your learning journey.
- Scope of re-test: Post the skill test, 1 re-attempt will be given for the learners who were absent due to exigencies or were not able to perform well in the said skill test. The best score out of the 2 tests will be considered.

4. Program specific details:

- **Skills required for Skill Test 1:**
 - Cloud and Containers
- **Module to revise for Skill Test 1:**

Cloud and Containers	AWS
	Docker
	Container Repository
	Docker Compose

5. Question format:

- MCQ - 1 hr
- Two task-based problem statements with questions from the mentioned modules and Viva will be conducted. - **Duration 1 hr. (VLearn, ZOOM Live session)**

6. Test Platform:

- The test will be conducted on ZOOM Live session, submission needs to be done in Vlearn. The re-attempt will be conducted during non-live session hours.

Pre-Test Guidelines

1. Test Environment:

- Choose a quiet, well-lit location where you won't be disturbed during the test.
- Ensure that your desk is clear of any unauthorized materials. Only have items that are allowed for the test (e.g., pen, paper).

2. Technical Preparation:

- Use a reliable computer (preferably a laptop or desktop) with a stable internet connection.
- Make sure your device is fully charged or connected to a power source.
- Test your camera and microphone to ensure they are working correctly.
- Close all non-essential applications and browser tabs to avoid distractions and potential interruptions.

3. Zoom Setup:

- Join the Zoom meeting 5 minutes before the scheduled start time.
- Keep your **camera on** and ensure **your face is fully visible** during the test. **Not turning on your camera and microphone will lead to disqualification.**

4. VLearn:

- Log in to your VLearn before the session starts. It will help you manage time during and post the test.

During the Test

1. Attendance and Verification:

- Listen carefully to the proctor's instructions at the beginning of the test.

2. Test Conduct:

- Follow all test rules as explained by the proctor. This may include restrictions on talking, using external resources, or leaving your seat.
- Avoid any form of academic dishonesty, such as sharing answers or using unauthorized materials.
- If you experience any issues (e.g., technical problems, questions about the test), use the Zoom chat feature to communicate with the instructor.

3. **Technical Issues:**

- If you lose connection or encounter a technical problem, try to rejoin the Zoom meeting as quickly as possible.
- Inform the instructor immediately about any technical issues via chat or email, as instructed.

Test Submission

1. **Completing the Test:**

- Ensure that you have answered all questions and reviewed your answers before the time is up and wait for your instructor to take a Viva.
- Follow the specific instructions for submitting your PDF, Word, Excel sheet in the VLearn platform. Submission VLearn links will be shared with you in the chat box.

2. **After Submission:**

- Confirm that your submission was successful, and take note of any confirmation messages.
- Remain in the Zoom meeting until the proctor confirms that everyone has submitted their tests and dismisses the group.

By following these guidelines, you'll help ensure that the test runs smoothly and that your performance accurately reflects your knowledge and preparation.
